

Dedicated to 300th Anniversary of the Russian Academy of Sciences

To the 95th anniversary of the VI Congress of the Russian Association of Physicists – Volga Congress

THE XXVII SARATOV FALL MEETING 2023

XI SYMPOSIUM ON OPTICS & BIOPHOTONICS

XXVII INTERNATIONAL SCHOOL FOR JUNIOR SCIENTISTS AND STUDENTS ON OPTICS, LASER PHYSICS & BIOPHOTONICS

SEPTEMBER 25 – 29, 2023, SARATOV, RUSSIA

SFM'23 Chair

Valery V. Tuchin, Saratov State University, Institute of Precision Mechanics and Control of the RAS, Tomsk State University

SFM'23 General Secretary

Elina A. Genina, Saratov State University, Tomsk State University

Organized by

Saratov State University (SSU)

Department of Physical Sciences of the RAS

International Research-Educational Center of Optical Technologies for Industry and Medicine “Photonics”, SSU

Science Medical Center, SSU

Institute of Biochemistry and Physiology of Plants and Microorganisms, FRC “Saratov Scientific Centre of the Russian Academy of Sciences” (IBPPM RAS)

Institute of Precision Mechanics and Control, FRC “Saratov Scientific Centre of the Russian Academy of Sciences” (IPMC RAS)

Saratov State Medical University named after V.I. Razumovsky

Volga Region Center of New Information Technologies, SSU

Tomsk State University (TSU)

ITMO University

The main goal of SFM'23 is to present and discuss the latest advances in the field of biophysics of optical and laser technologies in biology and medicine, fine mechanics and control of optical and physiological properties of tissues and cells, coherent optics of random and ordered media, materials and environmental sciences, nonlinear dynamics of laser systems, laser physics, spectroscopy and molecular modeling, nanophotonics and nanobiophotonics.

Specific problems of imaging and engineering of eukaryotic genomes, laser femtosecond optoporation of cells and tissues for in situ transfection of cells, remotely controlled nanostructured systems for targeted delivery and diagnostics, development of technologies for optical 'disruption' of the blood-brain barrier and personalized treatment of aggressive forms of glial tumors, combined thermographic imaging and terahertz tomography of tissues in the diagnosis of skin and mucous membranes, photoacoustic technologies for early theranostics of metastatic tumors, studies of the fundamental mechanisms of sleep for the development of breakthrough technologies in neurorehabilitation medicine, as well as the development of methods for screening-wise non-invasive diagnosis of viral and bacterial respiratory infections using laser spectroscopy and machine learning will be discussed.

The main attention will be paid to basic research of interactions of coherent, low-coherent, polarized, spatially- and temporally-modulated electromagnetic radiation within the broad wavelength range from x-rays to terahertz with inhomogeneous scattering media and biological tissues and cells. Elastic, inelastic (Raman, SERS, and CARS) and dynamic light scattering, Doppler, photoacoustic, photothermal, and nonlinear interactions, tissue and cell mechanics, and photobiological effects will be considered.

On this basis, the variety of laser and optical technologies for medical diagnostics, therapy, surgery, and light dosimetry, as well as for diagnostics and imaging of random and ordered media will be presented. Studies on lasers, fibers, and microstructured waveguides will be discussed. Optogenetics, plasmonics, and biosensing also will be the key features of the meeting.

The official languages of the meeting are English and Russian.

Culture program Visits to Conservatoire, Theaters, and Museums, 2-hour Volga-tour.

Visa application support

To apply for a visa at a Russian consulate, you need an official letter of invitation. The following information is required about you and accompanying persons:

1. Passport (valid up to six months after October 1, 2023) number: _____ dates of issue: ___ and of expiry: _____ (copy of passport page with photo)
2. Date of birth: ____, place of birth: _____
3. Living address: _____
4. Working position: _____

5. Working address: _____

6. Name of town, where you are going to apply for visa (Russian consulate)

Please, send this information to the general secretary of the SFM'23 **Elina A. Genina**:
